I feel stupid and contagious
我觉得自己很蠢，被传染了

I'm worse at what I do best
我超努力，我就超坏

Glam Rock Research

Glam Rock (also known as Glitter Rock) is a branch of hard Rock, a genre of Rock and pop music characterized by gender-ambiguous costumes, flamboyant theatrics, and a decadent and lazy musical style.

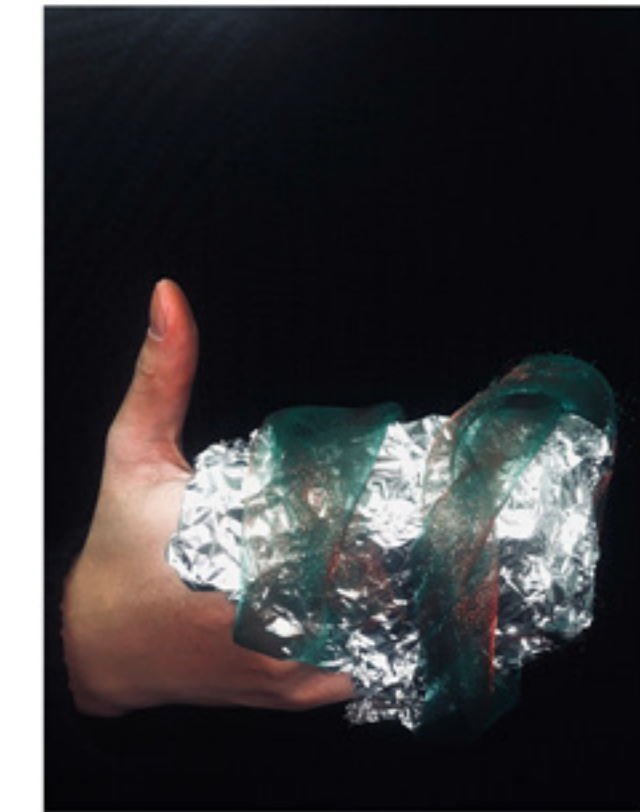

Glam rock was the dominant style at the time

They like to wear bright clothes to attract the audience

Grunge Music, sometimes referred to as the Seattle Sound or "Grunge rock" or "greasy rock", is a genre of Music that evolved from hardcore punk, heavy metal and indie Music in indie rock.

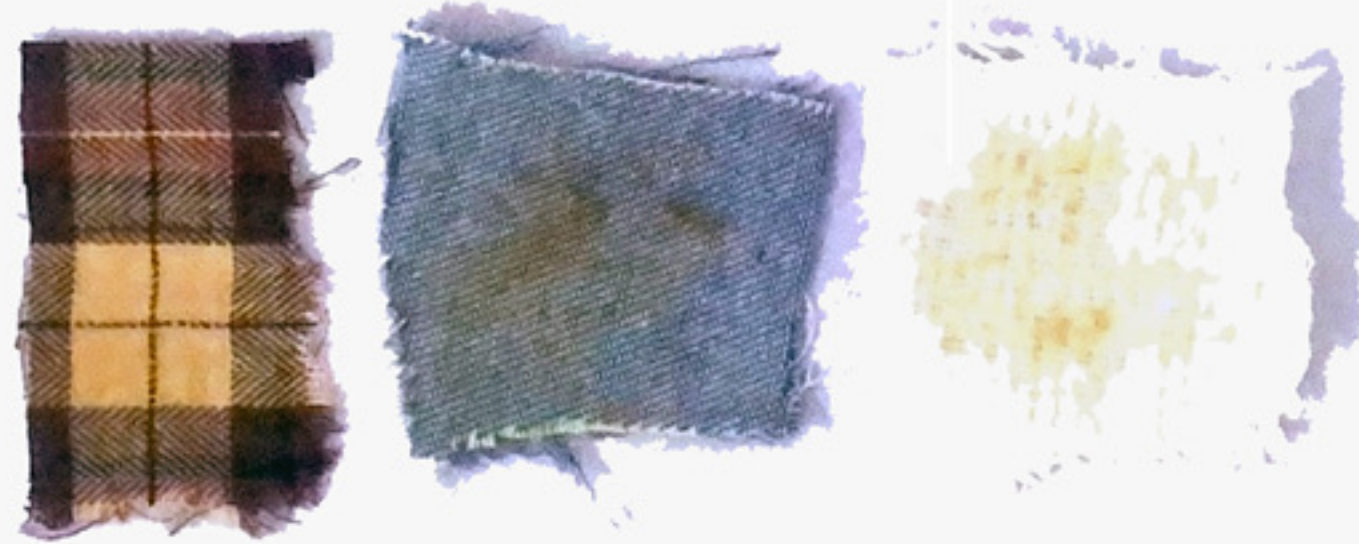

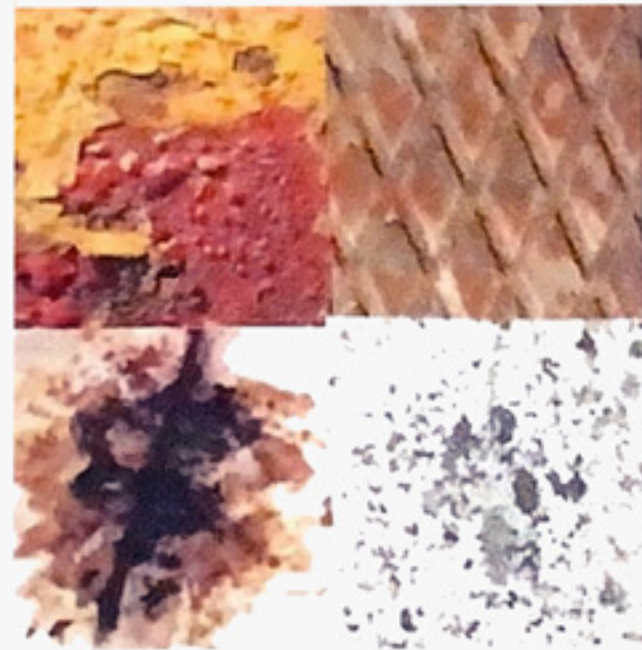

Primary Research and experiment

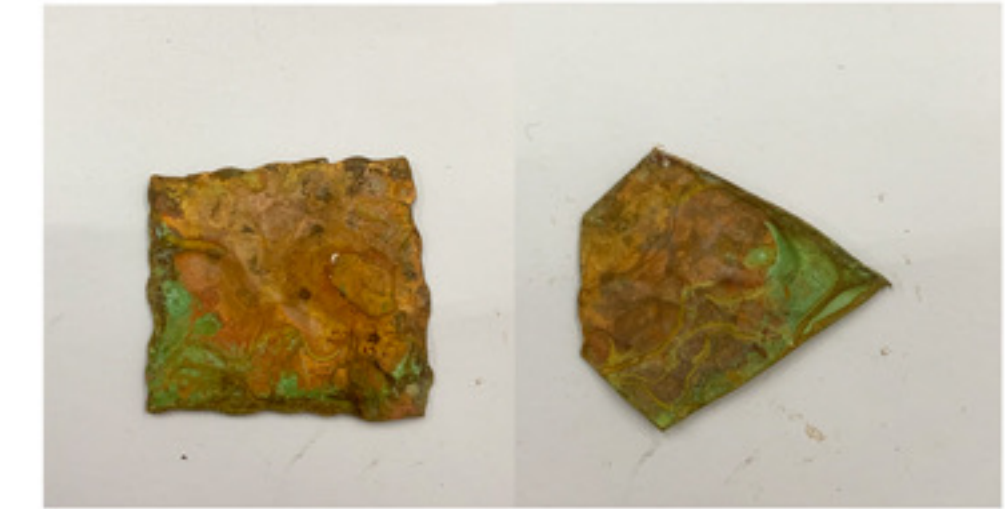

Although many people wore shabby clothes at that time, they loved the shabby feeling

This is the experiment of sewing patches. It is very interesting because i can sew anything that looks cool.

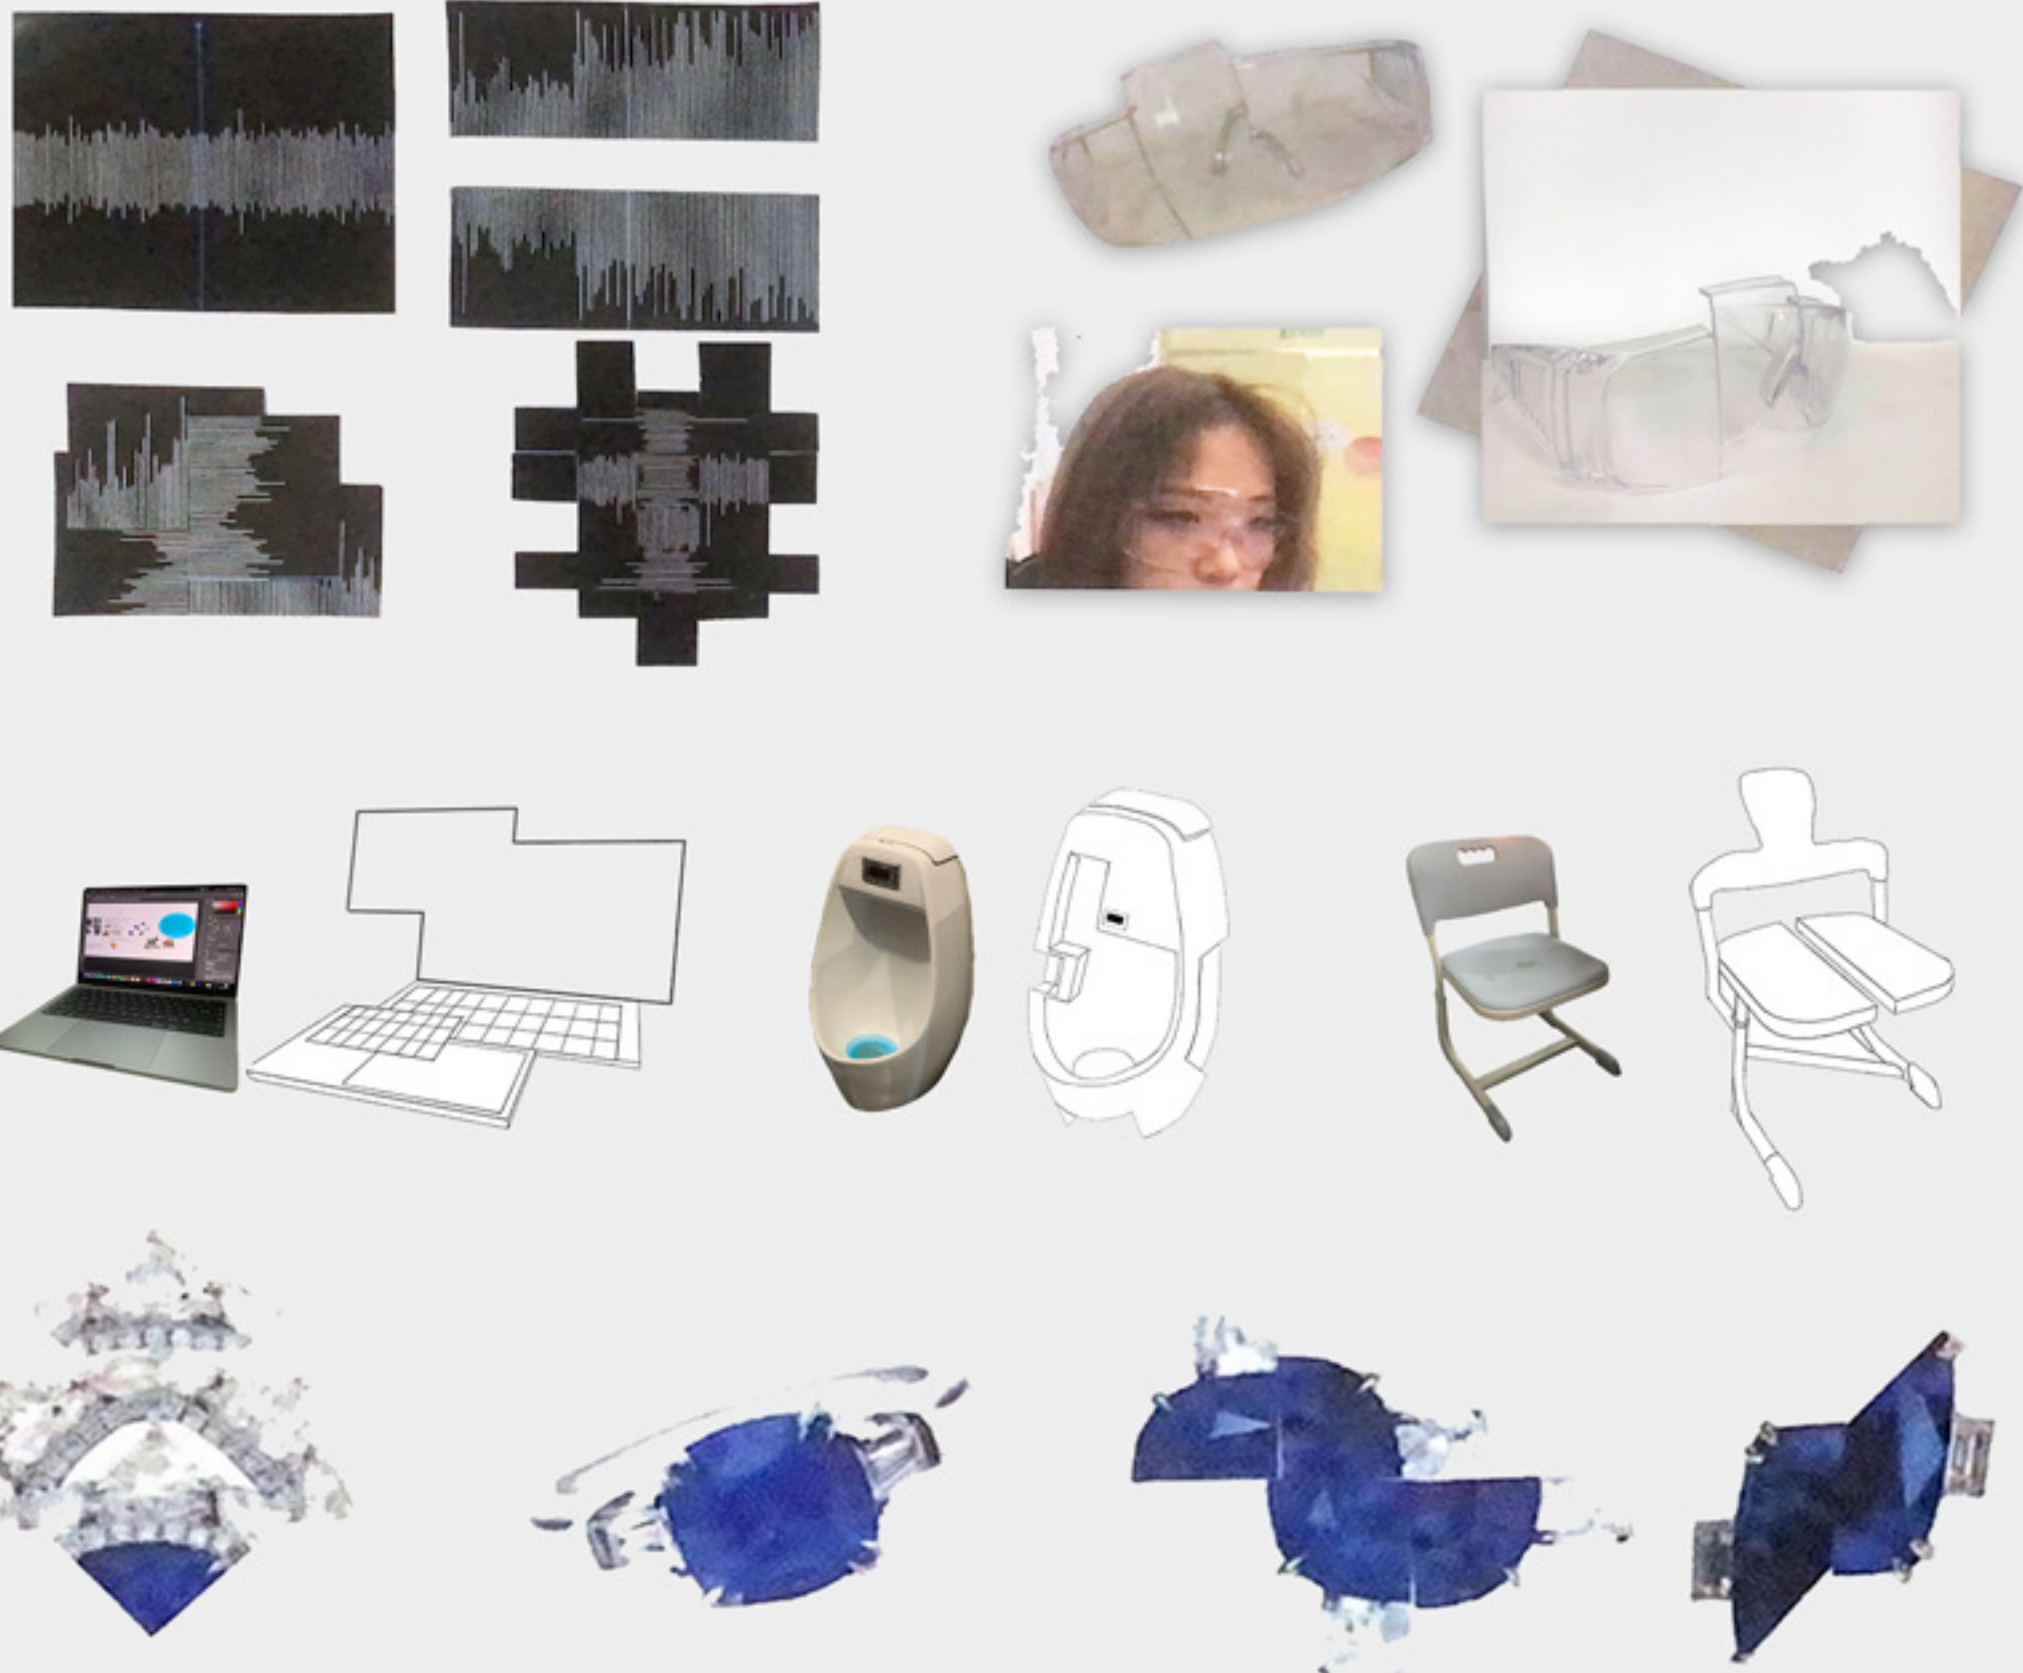

Copper oxidizing to create the sense of "imperfect"

The reaction of copper when it was put in to the hydrachloric acid. Finally the appearance of copper looks just like the original stone of Jadeite.

Deconstructing experiemnts

I first seperate the sonogram and I found that two parts are same with each other. And I try to remake it together in an asymmetric way. I also tried to deconstruct other things to create the sense of imperfect and I found the deconstruction of a traditional diamond ring very interesting.

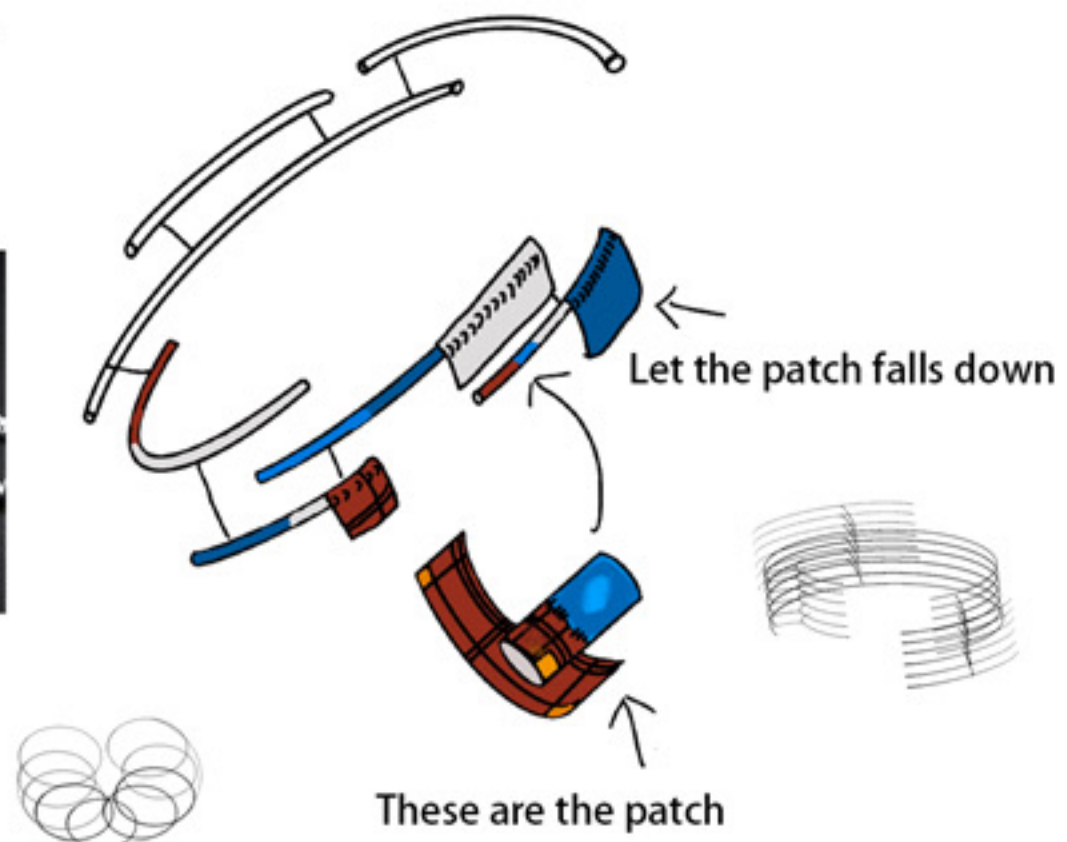

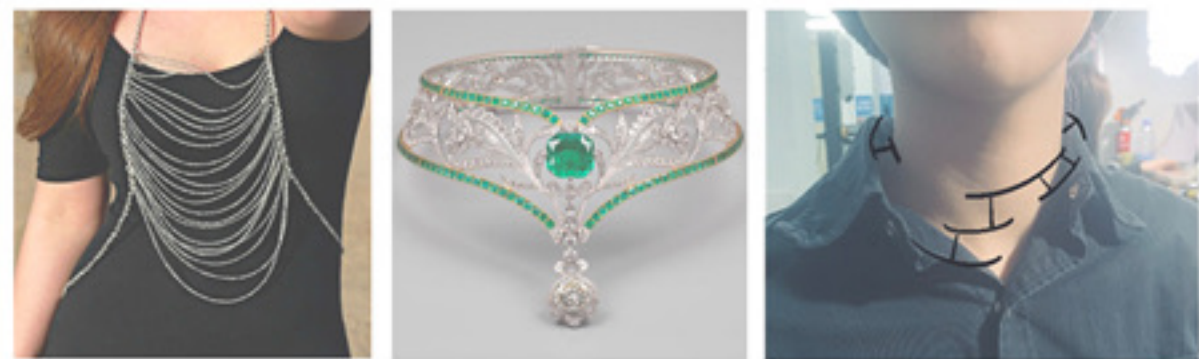

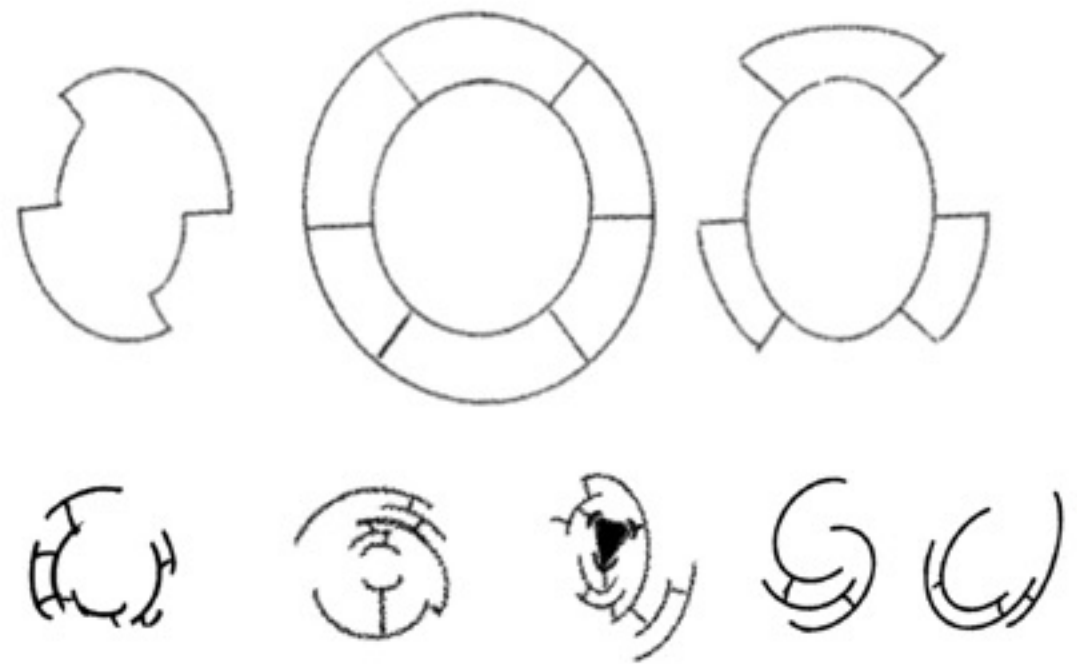

Design Concept

My opinion is breaking the things that are completed and remake it in another way . People now are living in a perfect world. They want everything becomes positive. Soon, they lose themself and enjoying in it. My purpose is reminding people that they should see the world in another way. Maybe you will find out the thing which is good on surface but actually it is contrary.

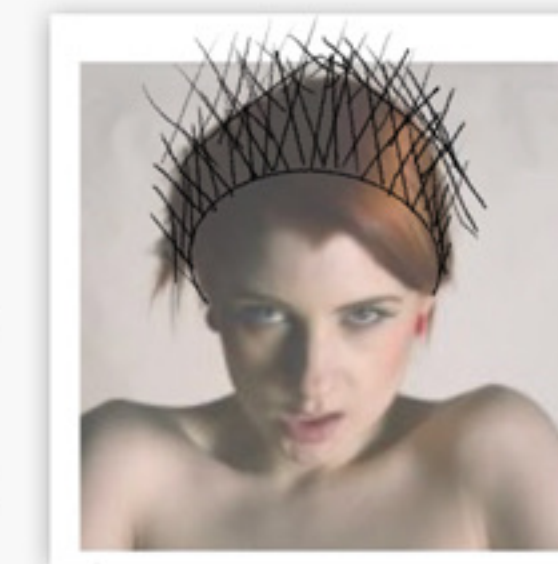

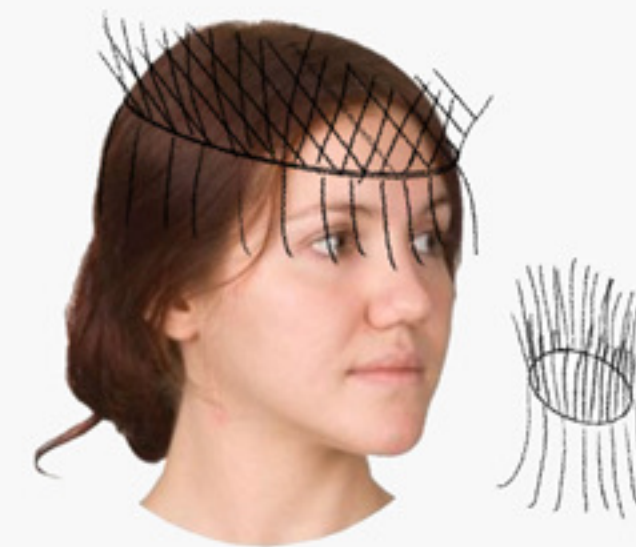

Second Piece Development

The necklace looks round when people wear it, but when we put it on the table, the necklace folds into a different shape

Third Piece Development

I find glam rock styles to be very exaggerated, their hair looks very fluffy, and grunge style is very chaos, so I want to try to merge these two points together

In the sketch, the repeated lines symbolize the fleeciness of glam rock, while the prominent lines represent the disorder and chaos of grunge rock
