

# The Superior Golden Record 金唱片

Found a new colony, Lost an old culture 发现一个新对殖民地，失去一个古老的文化

I assume we will do the same thing to alien civilization as Columbus landed in America and the Boxer Protocol Treaty.

我一直对外星生物很有兴趣，这个项目我讨论了如果人类成为宇宙中第一个发现其他生物的生物，我们会对其他的外星文明做什么？根据历史，我认为人类很可能会侵占这些外星文明。

The Golden Voyager Record is something we sent to alien nations and let them found us. So I wonder I what will human do to other alien civilizations when we are the technically ahead.

Paper cut the structure and decide to use wood board

I want adjust my sketches easily and efficiently, so I painted on paper and cut them in shape. Then posed on wood frame with soft felt to make a balanced and well-focused structure.

I want to create a serious but actually ridicules vibe for this painting. I choose to paint a huge scene cause it can make people stunned involuntarily, then I need something thick to hold on the whole scene, so I decided to paint on wood board, which I haven't done that before. And I want to imitate the official feeling in oder to give the whole paint a cold humor. So I use black and white just like newspapers do.

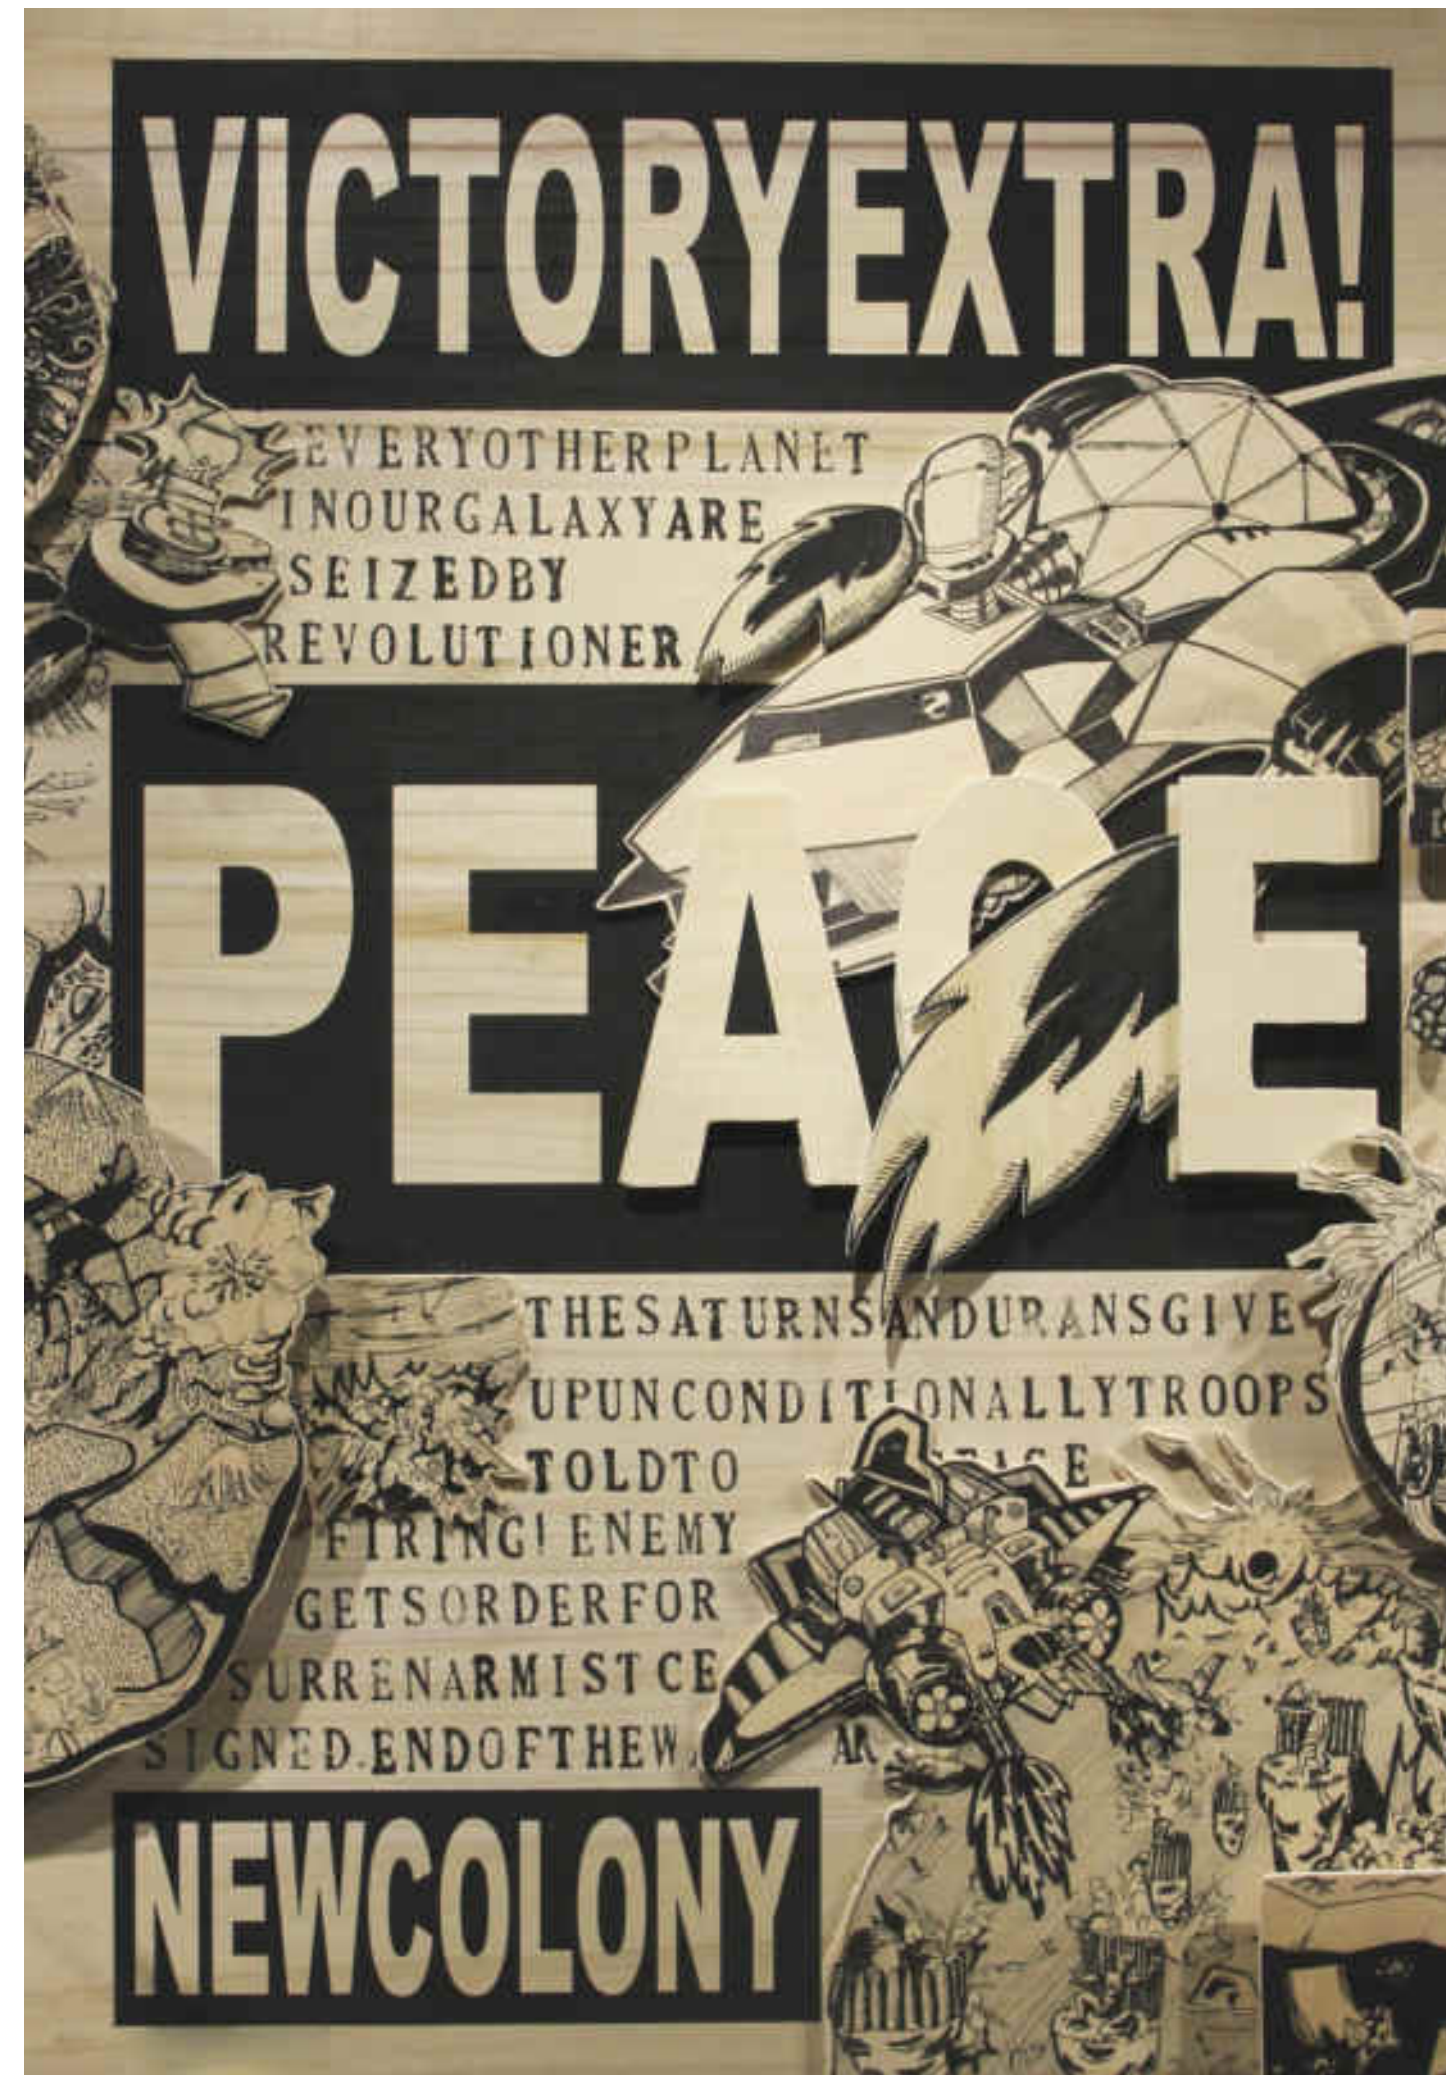

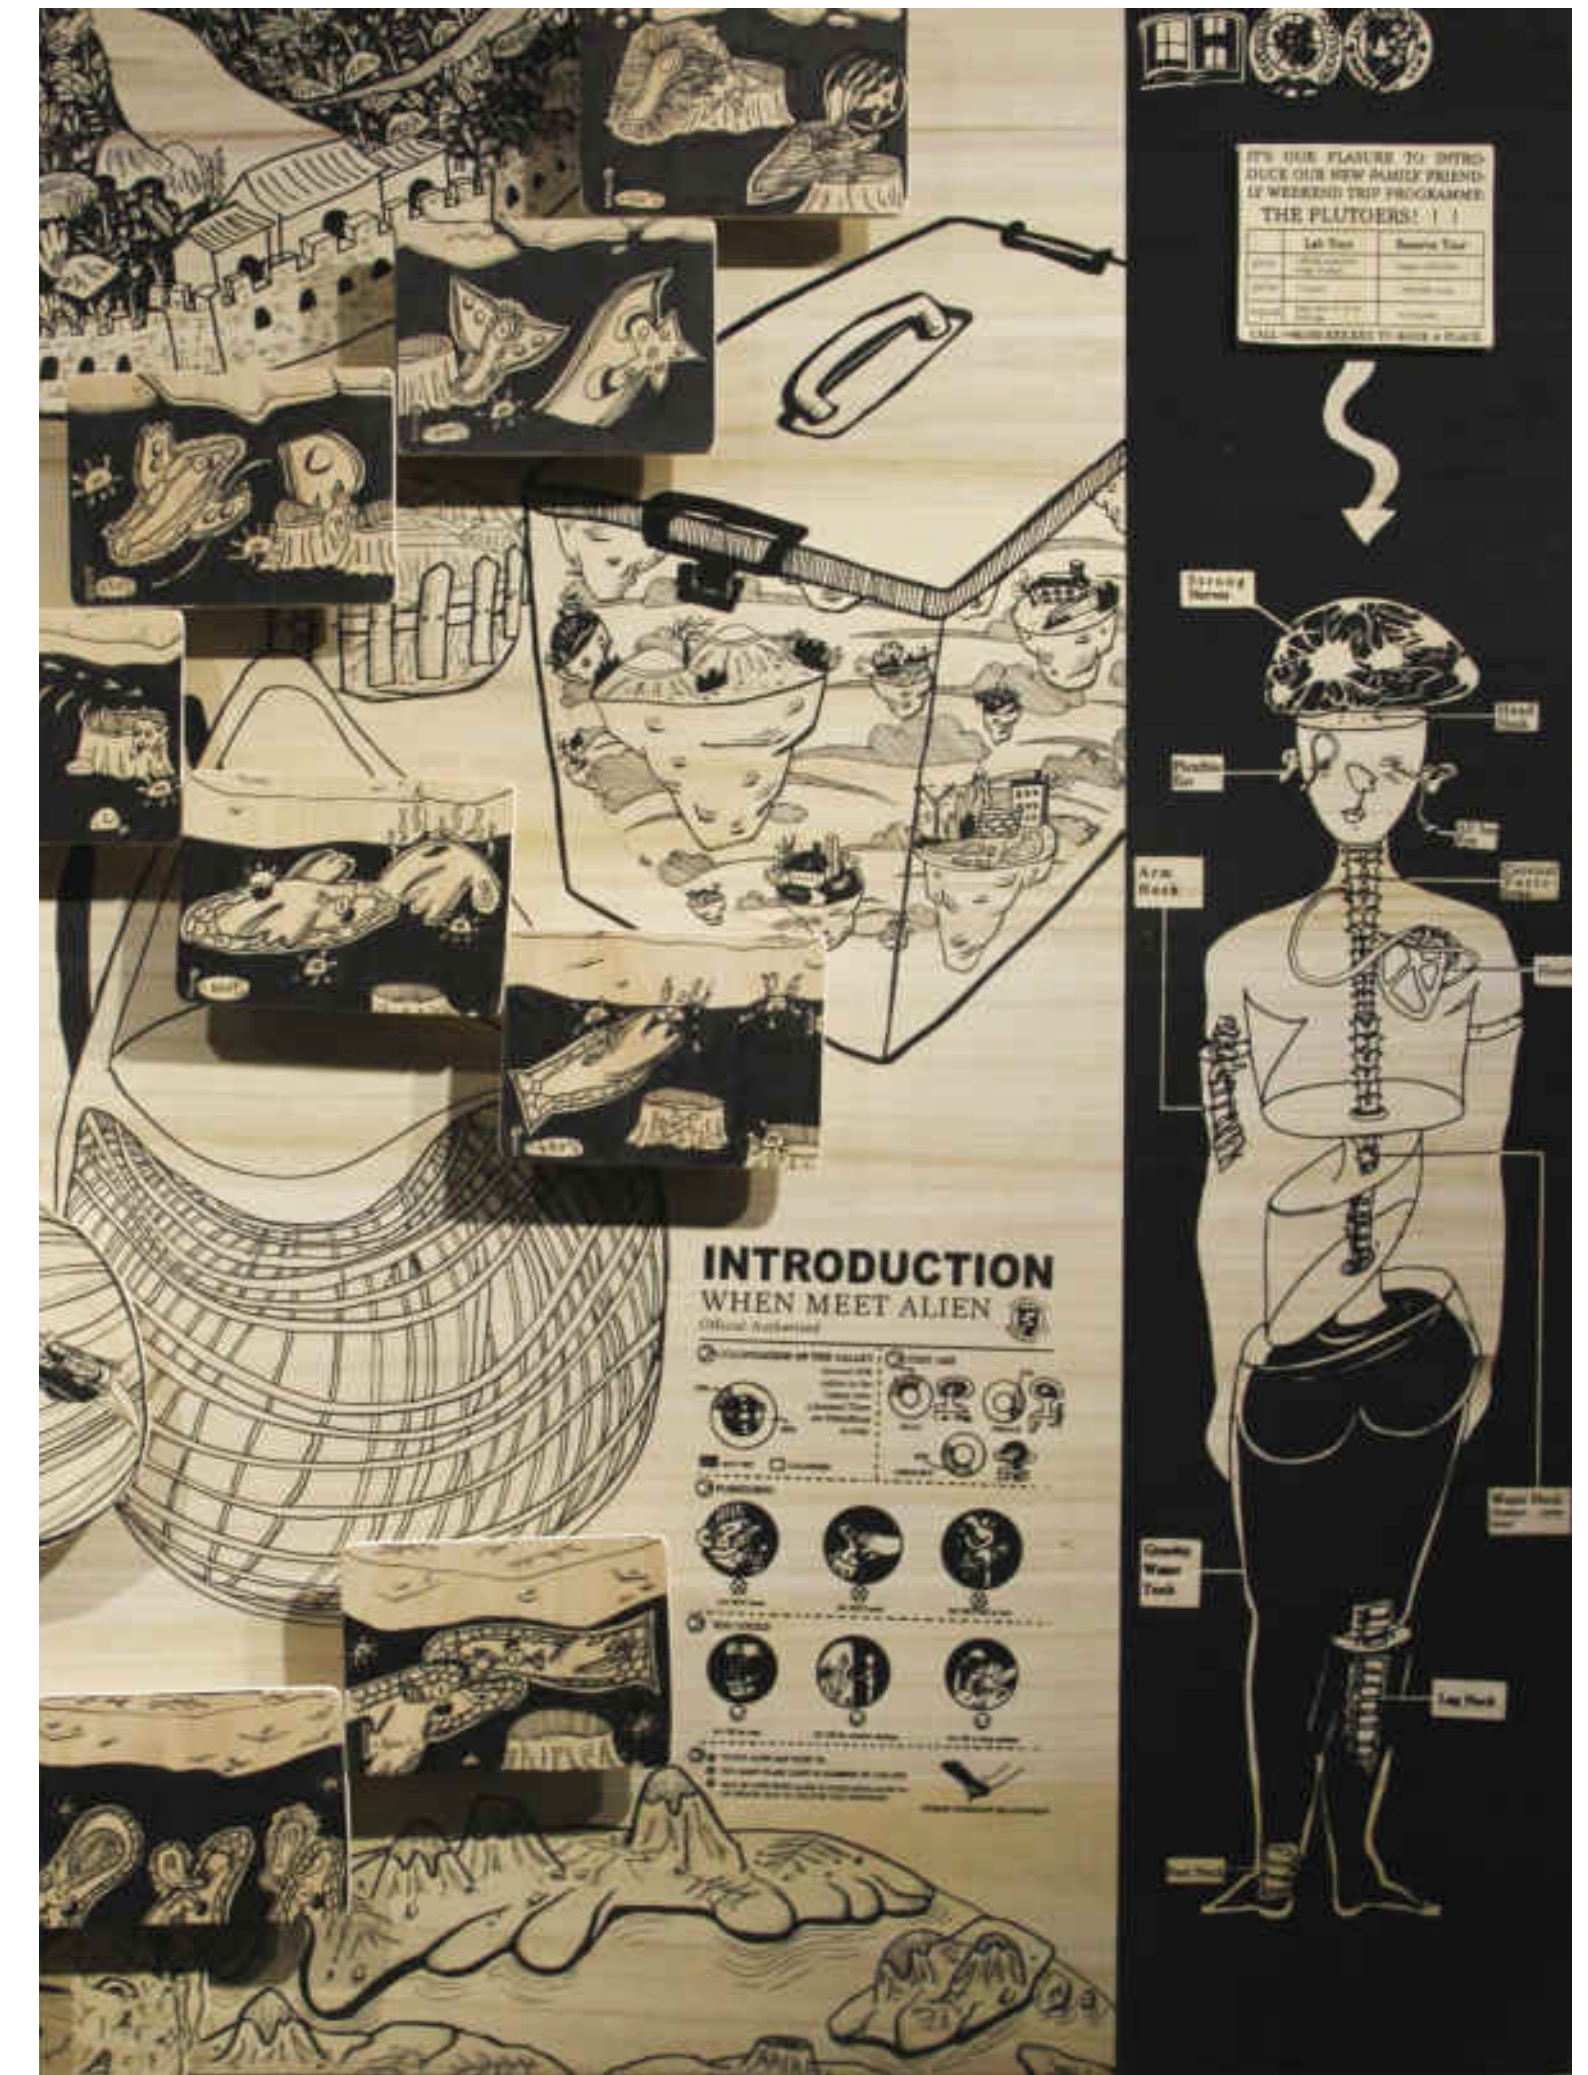

This phase is Exploring. About voyager spacecraft from all the planets in our galaxy searching each other. And the one sent by Earth finally succeed.

第一部分，人类和其他宇宙生物同时出发探索对方，人类是唯一发现别的生命的。

Phase 2 is conquering. This page refers to newspaper during world war 1 & 2. It is from human perspective .

We homo sapient firing to the weaker civilizations. 第二部分，宇宙大战，人类最终占领了所有其他星球。

The last phase is colonized. We use the rawest way to supervise our colonies. We studied other civilizations (their evolution, their constitution ). We also figuring out how to get along with them and make money from them.

第三阶段，人类用原始的方式看守自己的领地，研究其他生物，利益化它们。

# The Superior Golden Record金唱片—— Final Product 成品

180cm\*90cm, marker on wood board 秀丽笔, 马克笔在木板

Reflection: I acquired how to do screen printing. However in this project I waste lots of times on waiting for my material express, so for next time I 'd better do some arrangement ahead.

Tinagas Kieyep Town—Pangrok Sulap Future Improvement  
I can do something like this guide book. Present my work in detail.

I want people take my painting seriously like reading newspaper, so I drilled 4 shallow holes and hang it up on the white wall.

I used two methods hanging it. I used 4 rope to hang it initially, it looks fine but it will make the wood board lean forward, but I don't need that angle. And for the next time I hang it directly on the nails. It is flat and in people's eye level. That is what I want.

I don't have specific request for the light, just make my painting clear for reading and don't be abrupt.

There are many people walk by and trying to read my painting, that is so satisfying!

当看到观众尝试阅读我的作品，我感到非常的有成就感和幸福!
