

PROJECT2 PUPIL'S MUSIC FESTIVAL

This project is about the state of people participating in the music festival. When Woodstock Music Festival is held, there is a war outside, and a consistent environment comparison between inside and outside. There are three key words: transfusion and crowd and inside and outside. This project pays more attention to the interaction between people and objects.

Project2 : Inspiration

"Music Festival"

My inspiration comes from the culture of music festivals. Personally, I love going to music festival. After knowing more about it, I started to gain interest on the history of music. And I found that people who enjoy going to music festivals shares different perspectives to the world....

The music festival I went to.

Different kinds of music festival

- Sleeping music festival*
- Strawberry music festival*
- Grass Radio Music Festival*
- Music festival(amusement park)*

Music Entertainments

Music Festival

3. The music festival hold in suburbs helps the atmosphere and the economy

Concept

"History of woodstock music festival"

woodstock music festival was held at the time of the Vietnam war and some people chose this as a way to take a break. Establish a woodstock Nation "peace and love"

Transfision

Crowd

Inside & outside

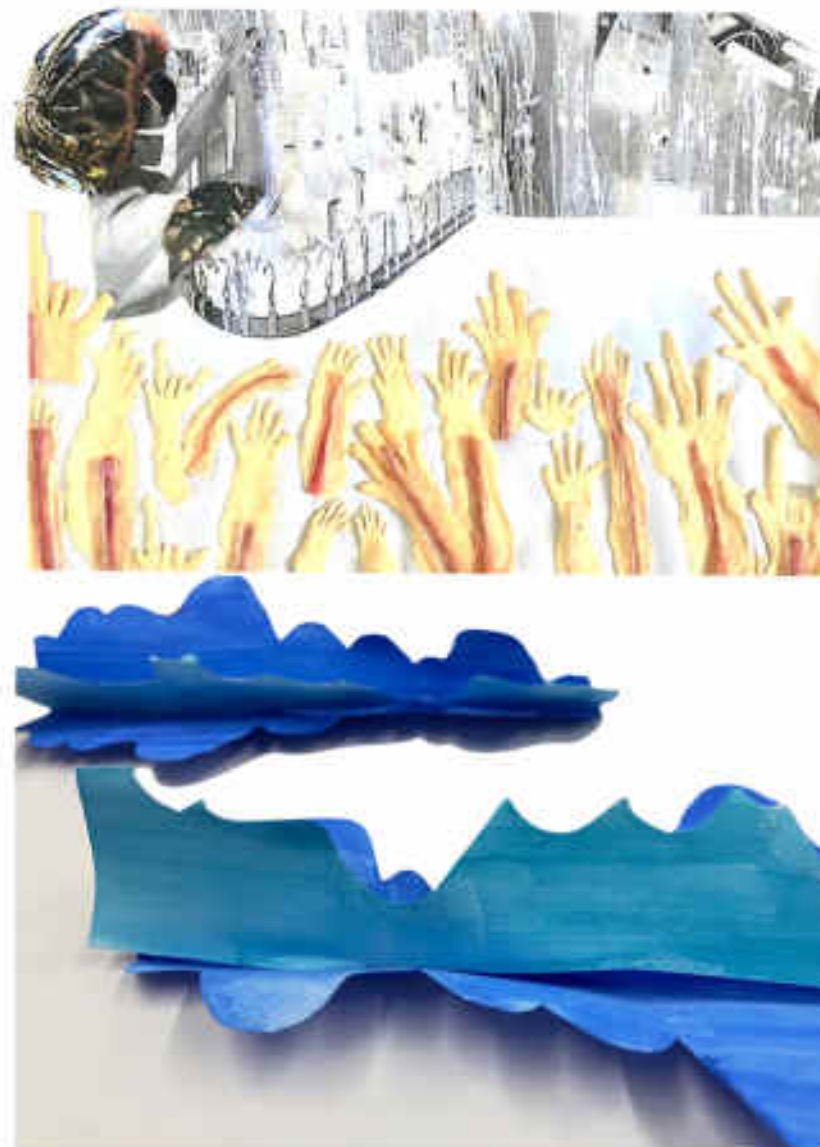

DESIGN AIM : Music festival brings people different cultural experience.

Developments

I made a moldboard based on the atmosphere of music festival, and I found that the "HANDS" and "CROWED" interest me the most, so I made 2 collages to express these to elements.

Artist research

Oliver Latta (Crowded)

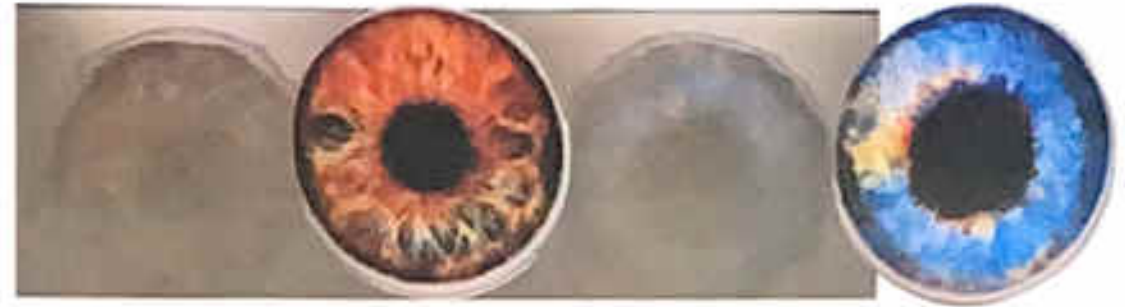

Some people (on the internet) says, the picture display "terrible subway". And this crowdedness for me is like the audiences at music festivals.

Peter Halley (Neo-Geometric)

Each geomatric element is surrounded by a boundary of Roll-A-Tex. Fluorescent colour for me is the representation of music festivals.

Marc Quinn

When we enjoy the music festival, light is reflect in our eyes. And in our daily life the pupil display landscape.

Soo Sunny Park

Lighting is one of the most famous decorations in music festival.

Idea Generating

Design References

Interactive Installation- Inspired from the front, make an interactive and immersive experience for the audiences

Idea*5

1. pupil

open/close eyes → music festival light

Reflection scene

magnify(outside)

white pupil(War?)

2. sea wave

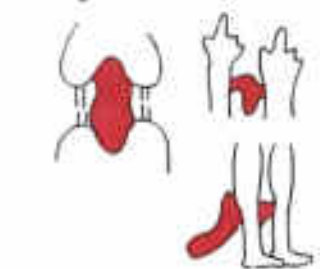

the wave rising=emotion fluctuate

3. crowd

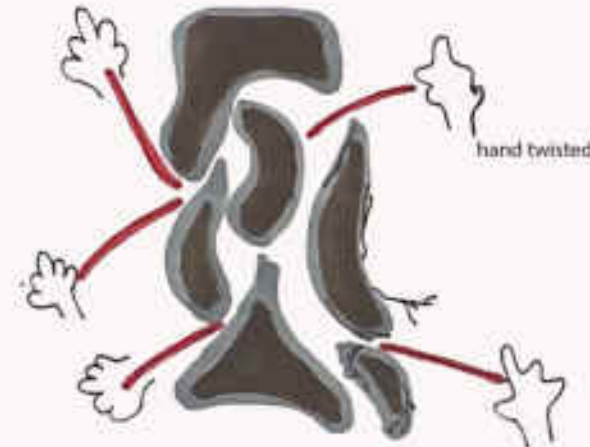

4. Deformation of body

when people join the music festival, their movements collide and connect.

5. Transfusion (CHOSEN)

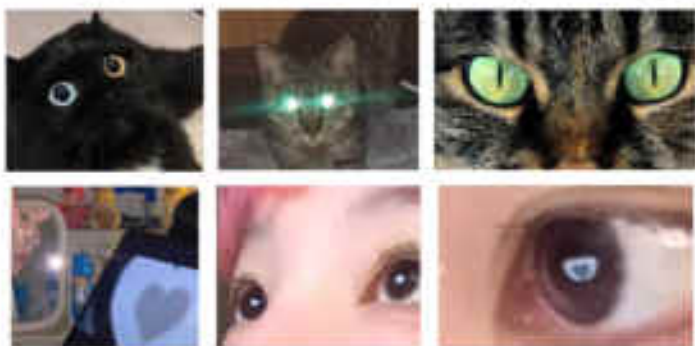

The tree is drained of sap, live—die

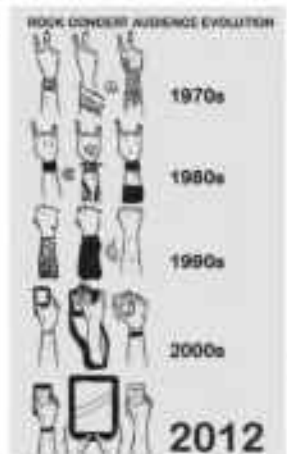

Idea Developments

A cat's pupils can change throughout the day(a line at night).

"Mobile music festival"

Some people laugh in the shape of the moon or something.

Now, we usually see mobile attend music festival, rather than gesture

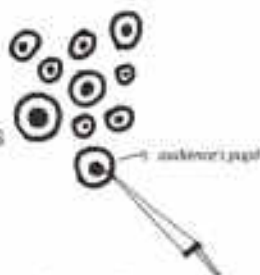

participant picture

I tested the size of the wood frame and the size of the participant space, and also chose the interaction between the eyes and the device

The pupils reaction when people are looking.

When people turn into old phase, and the pupils have a gray cycle

In our daily life we can see "landscape" for other people (healthy pupils)

After the war, and the pupils

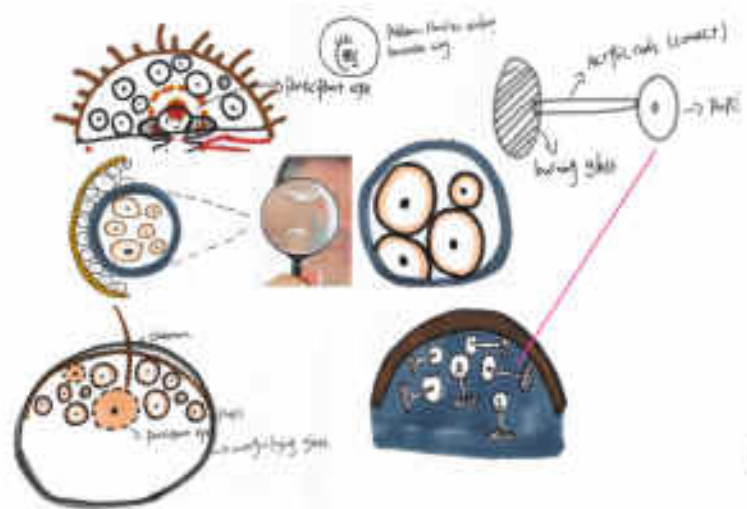

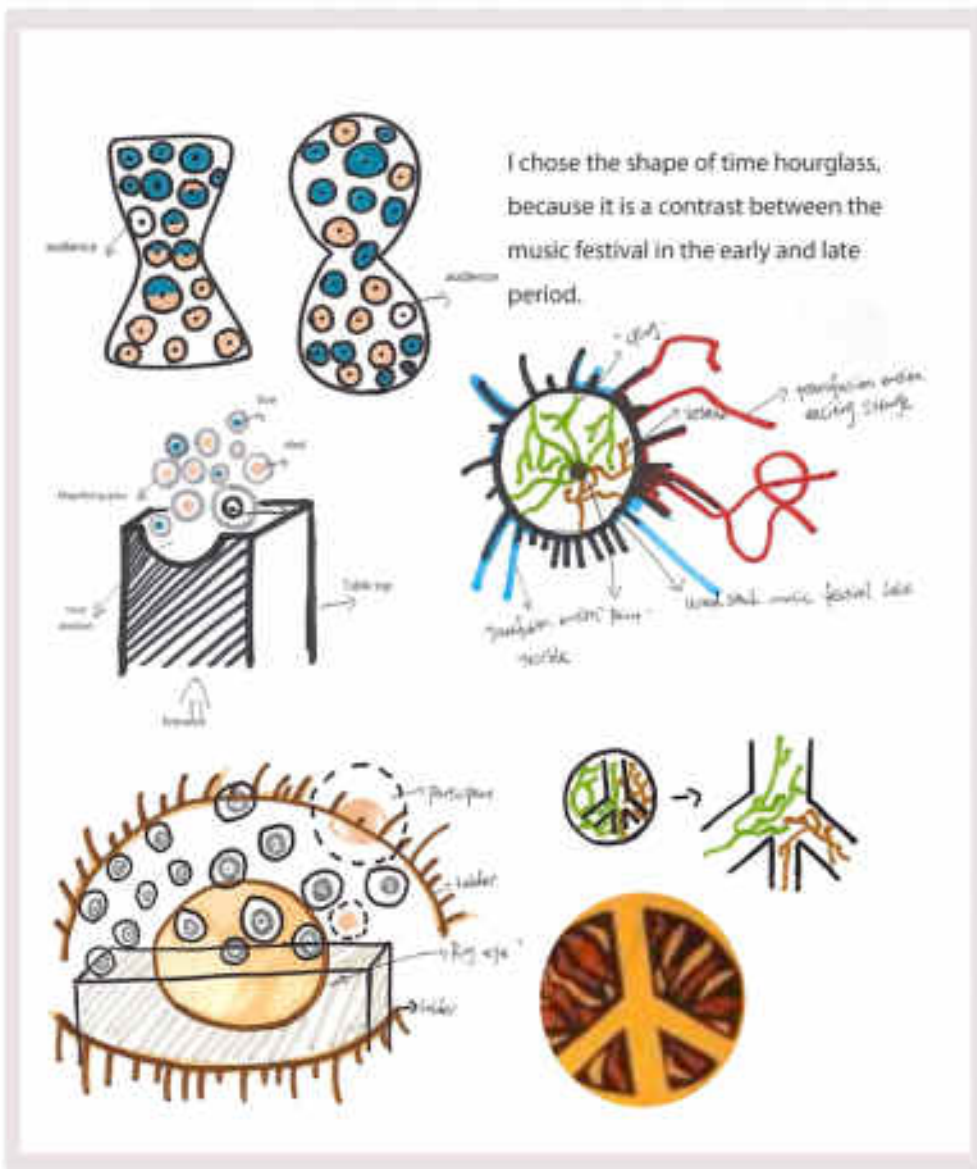

People have dangerous disease, and the pupils have behavior

The whites of the eyes react to stimuli

Final Idea

Contact lenses

Problem: how to enlarge?

Three keywords

Crowded

Inside and outside

Transfusion

*Interactive installation / Size:170*60*170cm / Material:uv glue,acrylic,iron stand,contact lenses*
